Engineering Hall 312

Turning the System On

- Press the **[ON]** button on the control panel.
- The buttons will flash as the projector turns on. You may now select a source.
- Lower the projector screen by pressing the down arrow button on the west wall.

Note: The system must be turned on before sources can be selected.

Control Panel

Using a Laptop

- Connect your laptop to the free end of the VGA cable on the floor near the floor box at the south side of the room.
- Select the **[FLOOR BOX PC]** button on the control panel.

Note: Depending on your laptop model, you may need an adapter. Adapters can be borrowed on short term loan (4hrs.) from an Engineering IT Help Desk.

Using the Resident PC

- If Desktop is not already selected, press the **[PC]** button on the control panel.

Using the Apple TV

- If the Apple TV is not already selected, press the **[Apple TV]** button on the control panel.
- To connect your device to the Apple TV, connect to IllinoisNet and from your AirPlay menu select **EH 312**.
- Once you attempt to connect, a 4 digital passcode will be displayed. Enter this on your device when prompted.

Using an Auxiliary Video Device

- Connect an RCA cable (user provided) between your device and the composite video ports on the input panel in the floor box at the south side of the room.
- Select the **[FLOOR BOX VIDEO]** button on the control panel.

Turning the System Off

- Press the **[OFF]** button on the control panel.
- The buttons will flash as the projector turns off.
- Raise the projector screen by pressing the up arrow button on the west wall.
