ESB 190

Turning the System On

- Press the **[On]** button on the control panel.
- The control panel lights will flash and the projector will take a minute to start up. Once the lights stop flashing, you may select a source.

Using the Resident PC

- If the resident PC is not already selected, press the **[PC]** button on the control panel.

Using a Laptop

- If Laptop is not already selected, press the **[Laptop]** button on the control panel.
- Connect your laptop to the free end of the VGA cable on the podium.

Note: Depending on your laptop model, you may need an adapter. Adapters can be borrowed on short term loan (4hrs.) from an Engineering IT Help Desk.

Turning the System Off

- Press the **[Off]** button.
- The control panel lights will flash as system will begin cooling and shutting down. This process takes approximately 2-3 minutes
