

CSL B02

Turning the System On

- Press the **[System On]** button on the screen once.
- The control panel will display a start-up graphic while the system starts.

Using the Resident PC

- If Desktop is not already selected, press the **[Desktop]** button on the control panel.

Control Panel

Using a Laptop

- If Laptop is not already selected, press the **[Laptop]** button on the control panel.
- Connect your laptop to the free end of the VGA or HDMI cable on the podium.
- To send the laptop video to the projector, select either **[VGA]** or **[HDMI]** on the control panel corresponding to the cable used to connect the laptop.

Note: Depending on your laptop model, you may need an adapter. Adapters can be borrowed on short term loan (4hrs.) from an Engineering IT Help Desk.

Using the Blu ray Player

- If Blu ray is not already selected, press the **[Blu ray]** button on the control panel.
- Insert your DVD/Blu ray into the player and use the controls on the control panel to play your media.

Turning the System Off

- Press the **[System Off]** button once.
- The system will begin cooling and shutting down. This process takes approximately 2-3 minutes
